PROJECT EXPERIENCE

Personal Portfolio Website

Careerfoundry (online) | 11/22 - 02/23

Build my website to present my work and skills to apply for roles as a UX Designer. I applied HTML, CSS, and Javascript to design the website and conducted a Usability Test to learn about the areas that need improvement and which are working well.

Vegan App "Vivid"

Careerfoundry (online) | 09/21 - 07/22

Created a health-related web app to support people transitioning and maintaining a vegan lifestyle. Applied UX Design methods like User Interviews to learn about pain points and needs of potential clients.

Hinterland of Things | Hackathon

Founders Foundation | Bielefeld | 09/22

Developed a solution for Phoenix Contact with a team of 4 people in less than 48 hours. Challenge: *How can skill-based fit of Job Profile and candidate be achieved with the help of AI?*

+ **First place by Phoenix Contact**
